Hi Lisa,

I have included a proof of your article that will appear in the Fall 2008 JAOS. Let me know if there are any changes that you feel need to be made. I have already told the Publisher about the mistake with the text being switched under Figure 5 and Figure 8. Thanks again for putting together such a great article. Dolphin is lucky (blessed) to have someone of your caliber working for them. I think the layout finished up great. Let me know what you think.
